

# Primary demolition jaws

IDC 70

Product **news**

 **INDECO**  
A TOOL FOR EVERY JOB

Specially designed for primary demolition work on reinforced concrete structures, Indeco IDC jaws have an optimal weight-to-power ratio, making them ideal for precise and efficient operation even at great heights.

## Technical Data

## IDC 70

Min. excavator weight, bucket position	65 ton
Operating weight of equipment	7200 Kg
Maximum working pressure	350 bar
Maximum oil delivery	300 ÷ 550 l/min
Maximum rotation oil flow	50 l/min
Maximum rotation pressure	150 bar
Maximum force at tip	180 ton
Force class	800 ton
Length	3350 mm
Width	610 mm
Maximum jaw opening	1800 mm
Jaw depth	1300 mm
Cutter blade length	200 mm
Closing time when empty	5 ÷ 7 s
Opening time when empty	3 ÷ 4 s
● Max cutting diameter	70 mm
Compatibility of attachment plate with hammer	HP 7000 - HP 9000
